ANNUAL INDEX, Vol. 68 ◂◂◂

A

Ackerman, Rolfe
—Higher "optimum velocity" steps up dust collection rate, Oct. 64
Acton Limestone Quarries, Ltd., Limestone, Ont., Canada, Sept. 66
Aggregate sampling: Does it work for or against you? Feb. 56
Aggregates—(also see crushed stone, sand and gravel and slag)
—Aggregate sampling: Does it work for or against you? Feb. 56
—Arvin Rock: A gravel plant designed for expansion, Oct. 68
—Automatic classifying tank helps Midwest Aggregate meet tightening specs, Feb. 64
—Country music helps Lee Crawford peddle aggregate & aglime, Oct 76
—J. R. Henderson says: "Open up public lands to aggregates operators!" May 122
—High profits roll on wheels for B. L. Anderson, Inc., Aug. 71
—In Southern California—Aggregate producers face critical land shortage, Dec. 68
—Jig may be your answer to low-cost beneficiation of both fine and coarse material, Dec. 52
—Jigs remove shale at Northwestern Gravel, June 72
—New hope for aggregate producers: Unlocked public lands! Oct. 97
—Plant design ideas, Sept. 65
—Acton Limestone Quarries Ltd. 66
—Asphalt Paving Co. 68
—Central Aggregates, Inc. 84
—Dutchess Quarry & Supply Co. 70
—Fordyce Gravel Co. 72
—Hoover, Inc. 74
—Kaiser Sand & Gravel 76
—Maule Industries, Inc. 78
—Union Rock & Materials Co. 80
—West Sand & Gravel Co., Inc. 82
—Prospecting for natural aggregates, Part 1, May 108
—Prospecting for natural aggregates, Part 2, June 92
—Unitized portable: Tops in flexibility and capability, Fredrickson & Watson Co., June 60
Agricultural limestone
—Country music helps Lee Crawford peddle aggregate & aglime, Oct. 76
—From ILPA's 20th convention: Iowa farm fields need more aglime, May 128
—How to raise your aglime sales for less than $5 a month, May 124
—New Jersey Zinc makes agstone from zinc tailings, Jan. 74
—What's ahead for aglime? (Roundtable), July 66
Air pollution
—Concern grows about air pollution control, Feb. 108
Albertson, Curtis C.
—Conveyor belts: Tops in material handling—if they're properly maintained, June 100
Aluminum haulage bodies rack up impressive performances (Spotlight on Quarrying), Nov. 78
American Aggregates Corp., Laura Limestone Div., Phillipsburg, Ohio, Feb. 78
B. L. Anderson, Inc., Cedar Rapids, Iowa, Aug. 71
Marling J. Ankeny says: Muddle, grief & confusion mark Bureau of Mines. Sept. . 96
Are you liable for blasting damage? June . 98
Arizona firm mines 200,000 tons of pozzolan for Glen Canyon dam, Standard Pozzolan Co., March 97
Arvin Rock: A gravel plant designed for expansion, Oct. 68
Arvin Rock Co., Bakersfield, Calif., Oct. .. 68
Asphalt Paving Co., Denver, Colo., Sept. .. 68
Atlantic Cement Co., Ravena, N.Y., Dec. .. 72
Automation, maintenance, win out over beds, phones & showers at IEEE cement conference, July 84
Automatic classifying tank helps Midwest Aggregate meet tightening specs, Feb. .. 64
Azbe, Victor J.
—Just off the drawing board: The Azbe "Ultimos" lime kiln, July 52

B

Bahama Cement Co., Freeport, Grand Bahama, May 75
Bahama Cement has a winning combination, May 75
Ball mill
—Vibrating ball mill performs giant job, Prairie Lane Gravel Co., Dec. 66
Beneficiation
—Jig may be your answer to low-cost beneficiation of both fine and coarse material, Dec. 52
—Jigs remove shale at Northwestern Gravel, June 72
Bergstrom, John H.
—Arvin Rock: A gravel plant designed for expansion, Oct. 68
—Bahama Cement has a winning combination, May 75
—Columbia Cement completes Zanesville modernization, Aug. 50
—Con Rock's new Durbin plant is tops in efficiency, April 44
—Extensible bags, rotary packer team for packhouse efficiency, National Portland Cement Co., June 64
—Four factors make Dutchess Quarry a pacesetter, Jan. 91
—Kaiser Gypsum Co. surges into East Coast markets, March 58
—Labor requirements hit bottom at River Cement, Oct. 50
—Louisiana Cement has control where it counts, Jan. 66
—New Jersey Zinc makes agstone from zinc tailings, Jan. 74
—Radical techniques highlight Florida sand plant, Melbourne Sand & Supply Co., July 76
—Unitized portable: One answer to high production, (Palazzi Corp.), Aug. 48
—Unitized portable: Tops in flexibility and capability, Fredrickson & Watson Co., June 60
—Vibrating ball mill performs giant job, Prairie Lane Gravel Co., Dec. ... 66
—What you should know about the scalping-classifying tank, Dec. 47
Berry, Charles W.
—How a small business can make its dollars work harder, March 101
Big equipment good design combine for efficiency, Bahama Cement Co., May 81
Blast-hole loading mechanizes, Part 2, Feb. 94
Blasting research—new tool for quarry improvement (Spotlight on Quarrying), Nov. 72
Blasting
—Are you liable for blasting damage? June 98
—Blast-hole loading mechanizes, Part 2, Feb. 94
—Blasting research—new tool for quarry improvement (Spotlight on Quarrying), Nov. 72
—Dynamic rock mechanics—where do we go from here? Part 3, March 65
—Rock breaking takes a giant step into the Space Age (nuclear), June 52
—That was the decade that was, Part 1, Jan. 83
—Will slurry blasting agents replace AN/FO (Spotlight on Quarrying), Nov. 70
Bliemeister, R. M.
—Proper maintenance can lengthen the life of your kiln, Feb. 110
Delmar L. Bloem warns: Aggregate costs will rise with construction demands, Aug. 86
Bottge, Robert G.
—Prospecting for natural aggregates, Part 1, May 108
—Prospecting for natural aggregates, Part 2, June 92
Robert Boynton says: "Lime industry will soon have overcapacity problem", Jan. 88
Braden, W. R.
—Cranephones at Atlantic Cement reduces ball mill downtime, regains lost production, Dec. 72
Briquetting, X-ray techniques refine on-stream analysis, Dec. 60
Brong, Sherwood C.
—Rubber dunnage bags save cement shipments at National Portland, June 66
Building stockpiles—the techniques & equipment (Stockpiling of Materials), Part 2, Sept. 103
Bulldozers uncover hidden treasures! (Fossils), May 138
Bureau of Mines
—Marling J. Ankeny says: Muddle, grief & confusion mark Bureau of Mines, Sept. 96
Burns, Clare F.
—Checked your power transmission equipment lately? Part 2, March 104
—How you can get longer life from your power transmission equipment, Part 1, Feb. 104

C

Calciners, fluidized bed
—How good is the FluoSolids reactor? July 72
Canadian firm claims doubled lime production with smaller Grate-Kiln system, Domtar Chemicals Ltd., July 64
Cement
—Automation, maintenance, win out over beds, phones & showers at IEEE cement conference, July 84
—Briquetting, X-ray techniques refine on-stream, analysis, Dec. 60
—Cement workers never had it so good, April 72
—Forecast for 1965, Jan. 56
—The FTC—and cement industry mergers, May 84
—Boyce Martin and Walter Crowther advise: Employe education should never end, Dec. 74
—R. J. Morrison says: "Cement firms may be forced to integrate" March 88
—James Nicholson warns: Independent producer can't battle the merger trend-alone, Feb. 88
—Particle size analysis: The key to finish mill control, May 118
—What's ahead for cement plant design? (Roundtable), Nov. 80
Cement plants
—Bahama Cement has a winning combination, May 75
—Columbia Cement completes Zanesville modernization, Aug. 50
—Columbia Cement going underground for limestone, Aug. 53
—Cranephone at Atlantic Cement reduces ball mill downtime, regains lost production, Dec. 72
—Giant Portland cuts costs, ups efficiency, with glass-bag dust collector, Feb. 90
—How good is the modern vertical kiln, Societa Cementi del Jonio, May 89
—Labor requirements hit bottom at River Cement, Oct. 50
—Louisiana Cement has control where it counts, Jan. 66
—Prehomogenization: Giant step forward for Lafarge Cement, May 94
—Pre-planned expansion doubles kiln capacity for Dewey Portland Cement, July 90
—Quality control, customer service were goals in plant modifications, (Columbia Cement Corp.), Aug. 56
Cement workers never had it so good, April 72
Cemstone Products Co., Inc., Highway #12 Plant and Lakeland Plant, St. Paul, Minn., March 74
Central Aggregates, Inc., Sacramento, Calif., Sept. 84
Checked your power transmission equipment lately? Part 2, March 104
Clark, James R.
—Proper clutch care means big fleet savings, Dec. 90
Classification
—Automatic classifying tank helps Midwest Aggregate meet tightening specs. Feb. 64
—European sand classifier guarantees tighter gradings (Rheax), Dec. 59
—What you should know about the scalping-classifying tank, Dec. 47
Clay
—Transloader unit boosts production at Natco's underground clay mine, Oct. .. 98
Closed-circuit TV captures interest of NSA plant operators, May 135
Columbia Cement completes Zanesville modernization, Aug. 50
Columbia Cement Corp., Zanesville, Ohio, Aug. 50-58
Columbia Cement going underground for Limestone, Aug. 53
Communications
—Cranephone at Atlantic Cement reduces ball mill downtime, regains lost production, Dec. 72
Concern grows about air pollution control, Feb. 108
Con Ed turns waste to wealth at fly ash sintering plant, Consolidated Edison Co., Oct. 81
Con Rock's new Durbin plant is tops in efficiency, April 44
Consolidated Edison Co., Astoria, L.I., N.Y., Oct. 81
Consolidated Rock Products Co., Durbin plant, Irwindale, Calif., April 44
Consumers Co., McCook, Ill., Sept. 114
Controls
—Cranephone at Atlantic Cement reduces ball mill downtime, regains lost production, Dec. 72
—Louisiana Cement has control where it counts, Jan. 66
—Quality control, customer service were goals in plant modifications, Columbia Cement Corp., Aug. 56
—Rock products instrumentation goes nuclear! June 73

What to expect in '66

1966—boom or bust? Has the economy heated up too much, or will 1966 be another record-breaking year? What's ahead for construction? Will aggregate production continue to break records? What are the prospects for major price increases in the coming year? Will overcapacity and depressed prices continue to plague the cement industry, or is there some relief in sight? The editors of ROCK PRODUCTS answer these and many more perplexing questions in January's big Annual Forecast Issue.
